

shortenPath

```
graph LR; shortenPath[shortenPath] --> isNormalizedWindowsDriveLetter[isNormalizedWindowsDriveLetter];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box, on the left, is white with a black border and contains the text 'shortenPath'. A blue arrow points from the right side of this box to the left side of a second box. The second box, on the right, is gray with a black border and contains the text 'isNormalizedWindowsDriveLetter' on two lines.
