

node-esm

The diagram shows a directory structure for 'node-esm'. It is represented by a light blue rounded rectangle with a dashed border. Inside, at the top, is the text 'node-esm'. Below this is a solid black rectangular frame containing five items: 'src', 'api', 'core', 'internal', and 'realtime'. The items 'api', 'core', 'internal', and 'realtime' are each enclosed in a smaller blue box with a black border, while 'src' is just text.

src

api

core

internal

realtime
