

RoundRobinLoadBalancer  
::countChildrenWithState

```
graph LR; A[RoundRobinLoadBalancer::countChildrenWithState] --> B[state]
```

A diagram illustrating a method call. On the left, a gray rectangular box contains the text "RoundRobinLoadBalancer" on the first line and "::countChildrenWithState" on the second line. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text "state".
