

FirestoreClient::constructor

```
graph LR; A[FirestoreClient::constructor] --> B[FirestoreClient::batchGet Documents];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'FirestoreClient::constructor'. The right box is gray with a black border and contains the text 'FirestoreClient::batchGet Documents' on two lines.

FirestoreClient::batchGet  
Documents
