

StringDecoder

```
graph LR; A[StringDecoder] --> B[normalizeEncoding]
```

A diagram showing a flow from a box labeled 'StringDecoder' to a box labeled 'normalizeEncoding'. A blue arrow points from the right side of the 'StringDecoder' box to the left side of the 'normalizeEncoding' box. The 'StringDecoder' box is white with a black border, and the 'normalizeEncoding' box is gray with a black border.

normalizeEncoding
