

IServiceOptions

```
classDiagram
    class IServiceOptions {
    }
    class IServiceOptions {
    }
    class IServiceOptions {
    }
```

The image shows a UML class diagram for the `IServiceOptions` interface. It consists of a rectangular box divided into three horizontal compartments. The top compartment contains the text `IServiceOptions`. The middle and bottom compartments are currently empty, representing areas for attributes and operations respectively.
