

RateLimiter::getNextRequest  
DelayMs

RateLimiter::tryMakeRequest

RateLimiter::refillTokens

```
graph LR; A["RateLimiter::getNextRequest<br/>DelayMs"] --> C["RateLimiter::refillTokens"]; B["RateLimiter::tryMakeRequest"] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'RateLimiter::getNextRequest' followed by 'DelayMs' on a new line. The bottom box contains the text 'RateLimiter::tryMakeRequest'. On the right, there is a single gray rectangular box containing the text 'RateLimiter::refillTokens'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box. The top arrow starts from the right side of the top white box, and the bottom arrow starts from the right side of the bottom white box.
