

TestScheduler::run

```
graph LR; A[TestScheduler::run] --> B[TestScheduler::createColdObservable]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'TestScheduler::run'. The right box is gray with a black border and contains the text 'TestScheduler::createColdObservable' on two lines.

TestScheduler::createCold
Observable
