

InterceptingServerListener
Impl::onReceiveMessage

InterceptingServerListener
Impl::onReceiveMetadata

InterceptingServerListener
Impl::processPendingHalfClose

```
graph LR; A[InterceptingServerListener  
Impl::onReceiveMessage] --> C[InterceptingServerListener  
Impl::processPendingHalfClose]; B[InterceptingServerListener  
Impl::onReceiveMetadata] --> C;
```

The diagram illustrates a mapping between two source methods and a target method. On the left, two white rectangular boxes with black borders contain the text 'InterceptingServerListener Impl::onReceiveMessage' (top) and 'InterceptingServerListener Impl::onReceiveMetadata' (bottom). On the right, a gray rectangular box with a black border contains the text 'InterceptingServerListener Impl::processPendingHalfClose'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating a relationship or mapping from the source methods to the target method.
