

Bucket::makePrivate

Bucket::makePublic

Bucket::makeAllFilesPublic  
Private\_

```
graph LR; A[Bucket::makePrivate] --> C[Bucket::makeAllFilesPublic Private_]; B[Bucket::makePublic] --> C;
```

The diagram illustrates a function mapping. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Bucket::makePrivate' and the bottom box contains 'Bucket::makePublic'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'Bucket::makeAllFilesPublic' on the top line and 'Private\_' on the bottom line. The arrows indicate that both 'makePrivate' and 'makePublic' functions are mapped to the 'makeAllFilesPublic' function, with 'Private\_' likely representing a state or a specific configuration.
