

MultiFactorAuthConfig
::constructor

```
graph LR; A["MultiFactorAuthConfig  
::constructor"] --> B["state"]
```

A diagram illustrating a relationship between a constructor and a state. On the left, a gray rectangular box contains the text "MultiFactorAuthConfig" on the top line and "::constructor" on the bottom line. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text "state".
