

GrpcClient::constructSettings

```
graph LR; A[GrpcClient::constructSettings] --> B[split]
```

A flow diagram consisting of two rectangular boxes connected by a blue arrow. The first box, on the left, is gray with a black border and contains the text 'GrpcClient::constructSettings'. A blue arrow points from the right side of this box to the left side of a second box. The second box, on the right, is white with a black border and contains the text 'split'.
