

MultiFactorAuthConfig
::validate

```
graph LR; A[MultiFactorAuthConfig::validate] --> B[state]
```

A diagram illustrating a relationship between a function and a state. On the left, a gray rectangular box contains the text "MultiFactorAuthConfig" on the top line and "::validate" on the bottom line. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text "state".
