

getSupportLevel

```
graph LR; A[getSupportLevel] --> B[translateLevel]
```

A diagram showing a call from the `getSupportLevel` method to the `translateLevel` method. The `getSupportLevel` box is white with a black border, and the `translateLevel` box is gray with a black border. A blue arrow points from the right side of the `getSupportLevel` box to the left side of the `translateLevel` box.
