

ApiError::constructor

PartialFailureError
::constructor

ApiError::createMultiError
Message

```
graph LR; A[ApiError::constructor] --> C[ApiError::createMultiError Message]; B[PartialFailureError::constructor] --> C;
```

The diagram illustrates a flow where two different error constructors, 'ApiError::constructor' and 'PartialFailureError::constructor', both point to a single function 'ApiError::createMultiError Message'. The function box is shaded gray, while the constructor boxes are white with black borders. Blue arrows indicate the direction of the flow from the constructors to the function.
