

LocationsClient::constructor

```
graph LR; A[LocationsClient::constructor] --> B[LocationsClient::port]
```

A diagram showing a call from the constructor to the port. It consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'LocationsClient::constructor'. The right box is gray with a black border and contains the text 'LocationsClient::port'.

LocationsClient::port
