

FirestoreNamespaceInternals::app

```
graph LR; A[FirestoreNamespaceInternals::app] --> B[extendApp]; B --> C[require]
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'FirestoreNamespaceInternals::app'. A blue arrow points from this box to a white rectangular box containing 'extendApp'. Another blue arrow points from the 'extendApp' box to a final white rectangular box containing 'require'. All boxes have a thin black border.

extendApp

require
