

CacheNode::isCompleteForPath

```
graph LR; A[CacheNode::isCompleteForPath] --> B[CacheNode::isCompleteForChild];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'CacheNode::isCompleteForPath'. The right box is gray with a black border and contains the text 'CacheNode::isCompleteForChild' on two lines.
