

onReadable

readAndResolve

createIterResult

```
graph LR; A[onReadable] --> B[readAndResolve]; B --> C[createIterResult]
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box labeled 'onReadable'. A blue arrow points from this box to a white rectangular box labeled 'readAndResolve'. Another blue arrow points from the 'readAndResolve' box to a final white rectangular box labeled 'createIterResult'. All boxes have a thin black border.
